

Download China's Current Government Type

Legislative Branch Of The Government of China. The legislative branch of the government of China consists of the highest department of the Communist party, the National People's Congress. This body plays a role in debating policy proposals and mediating discussions among its 2,987 members. China is ruled by a communist government. This government has been in place since 1949. Communism in China, and in communist governments across the world, strives for equality among its citizens in economy and class. The People's Republic of China is headed by President Xi Jinping, who was elected on March 14, 2013. Under China's current Constitution, the NPC is structured as a unicameral legislature, with the power to legislate, the power to oversee the operations of the government, and the power to elect the major officials of state. China's form of government is a communist state known as a People's Republic. The Chinese Communist Party (CCP) is the leading political party in China. Unlike parties in Western democracies, CCP is a tightly organized political force that controls and leads society at all levels., China's Current Government Type.
