

Download Conservation Energy Resources

The Energy Resources Conservation Board (ERCB) was an independent, quasi-judicial agency of the Government of Alberta. It regulated the safe, responsible, and efficient development of Alberta's energy resources: oil, natural gas, oil sands, coal, and pipelines. Led by eight Board members, the ERCB's team of engineers, geologists, technicians, economists, and other professionals served Albertans ... Energy conservation is the effort made to reduce the consumption of energy by using less of an energy service. This can be achieved either by using energy more efficiently (using less energy for a constant service) or by reducing the amount of service used (for example, by driving less). Energy conservation is a part of the concept of eco-sufficiency. ... programs State Energy Conservation Office.
