

Download What Are Terms And Coefficients

Improve your math knowledge with free questions in "Identify terms and coefficients" and thousands of other math skills. Improve your math knowledge with free questions in "Identify terms and coefficients" and thousands of other math skills. In algebraic expressions, like terms are terms that contain the same variables raised to the same power. Only the coefficients of like terms are different. Since adding or subtracting unlike terms is like mixing apples and oranges -- only like terms can be combined. Simplify algebraic expressions by combining like terms. Coefficients on some terms are negative., What Are Terms And Coefficients.
